

VAIBHAV KAUSHIK

Cloud Architect | AWS Solutions Specialist

vaibhav.kaushik2@wipro.com | London, UK | [linkedin.com/in/vaibhav-kaushik-4824161a0](https://www.linkedin.com/in/vaibhav-kaushik-4824161a0) | AWS Community Builder | 13 AWS Certifications

PROFESSIONAL SUMMARY

Results-driven Cloud Architect with 5+ years of experience designing and implementing enterprise-grade AWS solutions. Proven expertise in the AWS Well-Architected Framework, cloud-native security, automated DevOps pipelines, and multi-account governance. Holder of 13 AWS certifications including Solutions Architect Professional and DevOps Engineer Professional. AWS Community Builder with a track record of delivering scalable, secure, and cost-optimised cloud architectures that align with business strategy.

CORE COMPETENCIES

AWS Well-Architected	Cloud-Native Security	Terraform / IaC	AWS DevOps Tools
AWS Control Tower	AWS CloudWatch	Docker & Kubernetes	AWS CLI
EC2 / VPC / S3	IAM & SCPs / SSO	Cost Optimisation	Application Migration

PROFESSIONAL EXPERIENCE

Wipro (Wipro AWS Partner Lab) | Cloud Architect / AWS Cloud Engineer II Apr 2023 – Present

Designing and delivering end-to-end AWS cloud architectures for enterprise clients migrating to AWS, applying Well-Architected Framework principles across all five pillars.

- Sole owner of Wipro's internal AWS estate — designed, deployed, and governed **50+ accounts** using AWS Control Tower, Organizations, and SCPs, serving every practice and business unit across Wipro globally.
- Architected **Landing Zone customisations** including account vending automation, permission boundaries, and guardrails — enabling rapid, compliant account provisioning for clients across Financial Services, Retail, Telecom, and Healthcare.
- Co-developed and published **AWS Control Tower Network Security** on the AWS Partner Solutions Finder — automates secure greenfield and brownfield multi-account deployments, eliminating error-prone manual networking and security configuration.
- Automated infrastructure provisioning with Terraform and AWS DevOps tools (CodeCommit, CodeBuild, CodeDeploy), **reducing deployment time by 40%** and eliminating manual intervention.
- Optimised cloud costs by 20%** through autoscaling, right-sizing, and Spot Instance strategies validated against Well-Architected Framework recommendations.
- Configured **IAM policies, SCPs**, and AWS SSO to enforce least-privilege access and maintain compliance with industry security standards across all accounts.
- Monitored production environments via AWS CloudWatch and Prometheus, maintaining **99.9% uptime** and enabling proactive incident response.
- Delivered **100+ executive briefings** and customer demonstrations to C-suite and enterprise audiences, covering migration, governance, DevSecOps, and AI/ML reference architectures.
- Conducted **Well-Architected Reviews** and implemented remediation plans, improving security posture and operational resilience for client environments.

| Published Solution: AWS Control Tower Network Security

Co-developed and published on the AWS Partner Solutions Finder — automates secure greenfield and brownfield multi-account deployments, eliminating error-prone manual networking and security configuration. Addresses time-consuming setup processes, intricate networking configurations, and ongoing compliance management across accounts. Designed with a user-friendly configurable interface adhering to AWS best practices.

Wipro | AWS Cloud Engineer

Mar 2022 – Mar 2023

- Set up and managed Linux production servers on Amazon **EC2, EBS, ELB** with security groups and IAM policies enforcing least-privilege access.

- Assisted in **designing and architecting** AWS infrastructure for client workloads, integrating cloud architecture with existing on-premises systems seamlessly.
- Monitored cloud infrastructure health using AWS **CloudWatch** and SNS, ensuring proactive alerting and rapid incident response.
- Managed AMIs, snapshots, and volumes; performed **resource right-sizing** to optimise cost and performance.
- Collaborated with **cross-functional teams** to integrate cloud architecture components with existing systems for seamless functionality.

Capgemini | Analyst I

Jul 2021 – Mar 2022

- Developed C++ solutions and worked on SIP protocol call flows, gaining strong foundational software engineering skills.
- Provided hands-on troubleshooting and routing resolution for SIP call flow issues in production environments.

AWS CERTIFICATIONS (13 TOTAL)

✓ AWS Certified Solutions Architect – Professional	✓ AWS Certified DevOps Engineer – Professional
✓ AWS Certified Security – Specialty	✓ AWS Certified Advanced Networking – Specialty
✓ AWS Certified Machine Learning – Specialty	✓ AWS Certified Machine Learning – Associate
✓ AWS Certified Solutions Architect – Associate	✓ AWS Certified Data Engineer – Associate
✓ AWS Certified Developer – Associate	✓ AWS Certified SysOps Administrator – Associate
✓ AWS Certified Cloud Practitioner	✓ AWS Certified AI Practitioner
✓ Azure AI Fundamentals AI-900	✓ GCP – Cloud Digital Leader

EDUCATION

BTech in Computer Science | Graphic Era Hill University, Dehradun | 2021

- Coursework: Data Structures & Algorithms, Computer Networks, OS, DBMS.
- Academic Achievement Award – Intensive Research Program (IRP): Smart Air Quality Monitoring Using IoT.

ACHIEVEMENTS & COMMUNITY

AWS Community Builder – Dev Tools Category

Recognised by AWS for technical contributions and community impact in the Developer Tools category. Part of a global programme that supports AWS experts who create content, share knowledge, and build tools that help the wider cloud community.

- Technical content creator with 10,000+ engineering followers on LinkedIn — sharing insights on AWS architecture, multi-account governance, and cloud engineering.
- Speaker and demonstrator on AWS architecture topics, having delivered 100+ briefings to enterprise and C-suite audiences globally through Wipro AWS Partner Lab.
- Currently deepening expertise in Agentic AI on AWS (Bedrock, SageMaker, AgentCore) — building production-grade AI agent systems and contributing to the community through structured learning content.
